MINER RESCUES COMPANION.

He Removes Victims of Explosion to Place of Safety.

REPUBLIC SPECIAL.
Hancock, Mich., Nov. 14.—Advice from the mine which has reached the local directors of the Portage and Biscoe Company, which is developing a copper property in the Warren district of Arizona, give the details of an act of bravery performed by Bert Warner, a "lender" in the employ of the company. The young man was standing on his platform at the mouth of the shaft awaiting a signal to hoist the men who were setting the slow match for a blast. While he stood with his hand on the rope in order to make sure of catching the signal the instant it was given, an explosion in the depths below told him that an accident had happened. Instantly Warner swung himself off

into the shaft and slipped down the cable to the pumping station, 150 feet below. Here he shouted down the shaft, but he was too late and still no pain. Poor cured free if Cancer is very small. WILL CAST OFF CHICAGO YOKES.

Country Democrats of Illinois Are Determined to Have Party Leadership.

ATTEMPT TO CURRY FAVOR.

They So Regard Williams Boom for President Started by Mayor Harrison and Other Leaders.

REPUBLIC SPECIAL.
Springfield, Ill., Nov. 14.—There are thousands and thousands of good Democrats in Illinois who would burn their hats if Congressman J. R. Williams of Carmi should be fortunate enough to be the nominee for President at the Democratic National Convention next year.

The suggestion of his name from the Chicago leaders, however, is not pleasant to the best friends of the Carmi statesman.

The truth is that the country Democrats are in a revolt against the domination of certain Cook County leaders. The history of the last State Convention and State campaign settled the question of Cook County leadership for country Democrats. The Chicago yokes have been hard to wear. It has galloped every Democrat in the State, and the positive incapacity of Cook County politicians to run a campaign has been amply demonstrated.

This attempt to curry favor with the country Democrats by advancing Congressman Williams as Illinois's favorite son for the presidency means nothing less than that Cook County leaders want to maintain their grip upon the State organization of the party. They propose to use Judge Williams's well-known popularity to perpetuate themselves in power.

Particular individualism is referred to. All Chicago factions are bad. They are offering Judge Williams as a bribe to the breaking of the storm over their own heads. If they can prevent the breaking of the storm over their own heads, they will have accomplished their purpose.

The suggestion from Chicago of Judge Williams as a Democratic candidate for the presidency, he always has been "regular" and his progress at an early date, and from statements made unofficially the members are meeting with such success that the fund is being made to include all the firms that make up its membership.

There is a disposition on the part of some of the committees to hold back their lists until all possible subscribers have been seen. This is not in accord with the plans of the general committee, which has requested, through its chairman, that all funds be turned in as fast as they are received, otherwise the clerical work in acknowledging the subscriptions will be increased.

Throughout the State the funds are for the most part in the hands of the majority of the towns. A prominent official of the county has received from them in the last few days a sum of \$10,000.

The contributions are smaller, but they are practically the same of every town in the district. This, it has been stated, is the idea of the fund. There are half a dozen men in St. Louis alone who could buy a whole battleship outright if they wanted it, but a gift from them to the battleship would not be representative of the State.

LUMBERMEN TO AID.
Instead of asking their members what they will give, certain of the clubs have adopted the plan of setting a fixed subscription and asking for that amount. The success of this plan has been stated as assured in at least one organization, whose members have been asked to contribute.

This is the plan on which the members of the general committee that represent the lumber interests of the State are at work, and while their circular letter has been mailed, the results of their efforts will not be known for several days.

Some enthusiastic letters have been received, it is said, which promise the support of the lumbermen to the fund. The fund is estimated at a sum almost sufficient to buy the battleship without State aid. It is also said that St. Louis's share of the completed fund will be found to exceed the amount set by Chairman Ballard, \$5,000, by at least \$1,000.

Academy of Science Meeting.

TIME RIPE FOR CHANGE.
Individual members of the party, who never sought office and never expect to, have made up their minds to force a change in the party management. It is more necessary now than it was two years ago, when the Republic sounded its warning, that there is a brighter chance of carrying the State next year than there was in 1901, and with honest, energetic, intelligent leaders in charge of the machinery, the Democratic party may win.

WILL OPPOSE THE PIE TRUST.
New York Lunchroom Men Plan Huge Bakery.

REPUBLIC SPECIAL.
New York, Nov. 12.—Disaster impends for the Pie Trust.

The recent arbitrary increase in the price of a piece of pie selling for 5 cents has aroused the lunchroom men and a meeting is to be held in McKinley Hall at 74 East Fourth street, where means for the fight will be discussed. It is thought probable the anti-trust men will build a huge pie bakery of their own.

The lunchroom keepers are confronted by a serious situation. All their pies are produced by the trust and they cannot buy from dealers who are not allied with the trust bakers.

Not only have the prices been increased, but they are forced to accept all sorts of pies and find their protests laughed at by the trust pie bakers.

Blame, anemic pies that have been long on the market, and the lunchroom men, they find themselves winding about in an endless coil. They go from baker to baker, but find that they are on the list to buy from one concern only, and that no other bakery will sell to them.

When an attempt to escape from trust production is made, the lunchroom men, they find themselves winding about in an endless coil. They go from baker to baker, but find that they are on the list to buy from one concern only, and that no other bakery will sell to them.

WISHES TO AID BATTLESHIP FUND.

E. H. Boennkin Suggests Circulating Subscription Among Factory Employees.

CHILDREN SHOULD ASSIST.

Committeemen Continue Active Work in Interest of Testimonial and Results Are Encouraging.

Many ideas have been suggested for putting the movement to raise the battleship fund before the people in such a way that they will be called upon to subscribe, but none of these ideas have as yet been put to the test.

It is now proposed to circulate subscription lists among the employees of the various stores and factories, placing the lists in the hands of officers of the companies, as special committeemen.

This idea was proposed by E. H. Boennkin, president of the Crane Company, who said:

"The lack of a popular subscription does not indicate that the people are not interested, as a whole, in the battleship fund, but that they have had no real opportunity to contribute. If subscription lists were sent to the various firms and factories in the city, I am sure that many of their employees would be glad to contribute small sums that they would not send to the general committee, because of the small amount."

"If one were sent to me I should gladly present it to our employees, and judging from their contributions in other movements, the result would be an addition to the fund that would not come otherwise."

"In a matter which concerns the State, the school children should be asked to add their mite to the fund. This has been done in its progress at an early date, and with gratifying success, and though I understand that it cannot be done in St. Louis, in the smaller cities this is a good way to raise a popular fund."

MEET WITH SUCCESS.
None of the committeemen have made reports to the chairman or treasurer of the fund, except to ask questions. They have filled a page of their lists these will be sent in with the names and amounts of the contributions.

The committee appointed by the Manufacturers' Association is expected to report its progress at an early date, and from statements made unofficially the members are meeting with such success that the fund is being made to include all the firms that make up its membership.

There is a disposition on the part of some of the committees to hold back their lists until all possible subscribers have been seen. This is not in accord with the plans of the general committee, which has requested, through its chairman, that all funds be turned in as fast as they are received, otherwise the clerical work in acknowledging the subscriptions will be increased.

CURED BY SWAMP-ROOT

Suffered With Inflammation—Catarrh of the Bladder and Weak Kidneys.

Hon. D. A. Montgomery's Interview With the Editor of the Nashville American.

HON. D. A. MONTGOMERY.

Mr. Montgomery, Ex-Member of State Legislature, was recently interviewed by the Nashville, Tenn., American regarding his cure by Swamp-Root and made the following signed statement:

"My indorsement of Dr. Kilmer's Swamp-Root cannot be written strong enough. I had been greatly troubled with my kidneys and with what the doctors termed inflammation at the neck of the bladder. I was obliged to pass water very frequently day and night, often with smarting and burning. Sometimes my back would get so lame and sore that I was almost helpless. I tried several doctors and medicines to no good effect, when finally I heard that Dr. Kilmer would send a sample bottle of his kidney medicine, Swamp-Root, free by mail. I sent at once and received a sample bottle without delay. After trying the sample I concluded it was just the medicine I needed, and I purchased a liberal supply from my merchant and friend, Mr. E. J. Balizer. To-day I am a well man, and can ride horseback and drive with any of my friends. I cannot recommend Swamp-Root too highly for what it has done for me. You are at liberty to use this letter or refer any one to me, and I will gladly tell them about my past troubles and what a wonderful remedy this Swamp-Root is. I am very glad to recommend it to others at every opportunity. Mr. James Ivens of Sandersville, Tenn., and many others are taking it with good results.

"Yours very truly,
Worham, Sumner Co., Tenn., Nov. 11th.

D. A. Montgomery

Fearful Loss of Life in the Cape Verde Islands.

REPUBLIC SPECIAL.

New Bedford, Mass., Nov. 14.—Letters received here from the Cape Verde Islands dated September 20 tell a frightful tale of loss of life in the islands as a result of the famine. Since last March, when the famine began, 10,000 deaths have been reported in the islands of Santiago, and the death rate is given as from thirty to thirty-five a day.

The Portuguese Government has taken no steps for the relief of the stricken population, and all outside aid has come from the Board of Trade of Lisbon.
